Remarks

Nestled on nearly 2 acres in a prime Kenwood location, this timeless estate blends privacy, elegance, comfort, and quintessential Wine Country charm. An electronic gated entry opens to beautifully landscaped grounds featuring a pool with waterfall, hot tub, outdoor bathroom, serene views, and a 4+ car garage/workshop for hobbies and storage. The home lives as a single level, with the primary suite and main living areas on the ground floor. Upstairs are two en suite bedrooms and 400+ sqft of unfinished attic space with skylights ideal for future customization. Soaring cathedral ceilings, hardwood floors, and grand windows fill the home with natural light and frame the picturesque surroundings. The remodeled chef's kitchen features a Wolf 6-burner cooktop, stone-topped island, custom cabinetry, and a walk-in pantry. Built by its original owners and meticulously maintained, the home exudes classic elegance and quality craftsmanship with no expense spared and no detail overlooked. A rare offering for the most discerning buyers just minutes to parks, hiking/biking trails, wineries, shopping, and fine dining.
